Notice Concerning Reduction of Cross-Shareholdings

In accordance with the principles of its Corporate Governance Code, SAKATA INX CORPORATION (hereinafter, the “Company” or “we”) has been reducing its cross-shareholdings by assessing the rationality of holding such shares individually for each stock, and selling or otherwise disposing of shares that are determined unnecessary.

In the news release dated February 14, 2025, entitled “SAKATA INX CORPORATION to implement management that accounts for capital costs and share prices [update],” we declared our intention to further reduce the cross-shareholdings. We hereby announce the details of our actions as follows. We will accelerate the reduction of cross-shareholdings, improve capital efficiency, and utilize the proceeds for investment in sustainable growth and shareholder returns.

1. Reduction target of cross-shareholdings

With the aim of improving capital efficiency to enhance corporate value, we will work to reduce the number of cross-shareholdings (other than unlisted shares) to zero in the next fiscal year onwards. As a first step, we will reduce the number by at least 50% of the market value as of December 31, 2024.

2. Period of implementation

Until December 31, 2025

3. Policies

We will engage in careful dialogue with the issuers of the shares subject to sale in the future, and work to gain their understanding of the Group’s policies. We will continue to strive to maintain and strengthen our business relationships with these companies.

In the event that timely disclosure becomes necessary, we will promptly provide notification.
