SAKATA INX CORP.

## **Acquisition of ISO/IEC 27001 Certification,** **the International Standard for Information Security Management System**

SAKATA INX CORPORATION (Representative Director, President & CEO: Yoshiaki Ueno) announced that it has obtained certification for ISO/IEC 27001, the international standard for information security management system (ISMS) covering all domestic sites of the Company and its Group companies.

[Certification Body] Japan Quality Assurance Organization (JQA)

[Registration Number] JQA-IM2231

SAKATA INX Group conducts business in Japan and overseas through a wide range of products and services, including printing inks. In conducting our business activities, we recognize that the information and information systems we handle are critical sources of our competitiveness. Accordingly, we are committed to protecting our information assets, addressing anticipated risks, and continuously improving our operations.

ISO/IEC 27001 is an international standard for information security management system designed to maintain the confidentiality, integrity, and availability of information. By obtaining this certification, SAKATA INX Group has strengthened its business foundation to continue earning the trust of customers, business partners and society by establishing an information security management system based on an international standard as a company operating globally.

SAKATA INX Group will continue to pursue ongoing improvements to its information security management system through the implementation of ISO/IEC 27001. By appropriately protecting its information assets and further enhancing the information security foundation that supports its global business activities, the Group will continue to strive to be a trusted corporate group for customers, business partners and society.
